

# PRODUCTLIST MAGONAREZ S.L

[WWW.MAGONAREZ.COM](http://WWW.MAGONAREZ.COM)

Productname	Solids % +/-1%	pH	Viscosity* m.Pas	MFT °C	Tg °C	Properties
PF-009-AC	45	7,5 – 8,5	< 500	34	37	Clearcoats for furniture finishing. Coatings based on this resin meet DIN 68.861-1B. Excellent resistance properties, both chemical and mechanical. Highly transparent colourless films which allow white substrates to be overcoated.
PF-014-AC	40	7,5 – 8,5	< 500	34	37	General purpose selfcrosslinking pure acrylic binder. Excellent hardness, transparency and resistance properties.
PF-030-AC	40	7,5 – 8,5	< 800	14	N.A.	High quality, high performance selfcrossling pure acrylic binder with low MFT providing excellent hardness, sandability, transparency and resistance properties. This resin allows the formulator to formulate coatings with low VOC.
PF-033-AC	40	7,5 – 8,5	< 600	ca. 5	N.A.	Resin for interior wood applications. Excellent hardness : elasticity ratio, sandability, blockresistance and transparency. The low MFT of this resin allows the formulator to formulate coatings with low VOC.
PF-035-AC	40	7,5 – 8,5	< 500	ca. 5	N.A	Resin for both interior- and exterior applications. Excellent hardness (blockresistance), elasticity, wet-adhesion and durability.
AD-138	40	7,5 – 8,5	< 500	ca. 34	36	Pure acrylic copolymer for high quality furniture- and woodcoatings. Excellent chemical resistance, fast drying, early sandability. Excellent transparency. Topquality product.
AD-185	40	7,5 – 8,5	< 500	ca. 37	30	Pure(meta)acrylic copolymer resin for topquality furniture finishing. Excellent hardness development and rapid drying. Transparency and excellent chemical and mechanical resistance properties. Top quality product.

\* Brookfiled RVT Spindle 2 /50 rpm
